Vaccine Hesitancy Episode

— Karen Ernst, Voices for Vaccines —

Dr. Nathan Boonstra, Blank Children's Hospital

Anti-Vaccine or Vaccine Hesitant?

“Anti-vaccine advocates — those publicly condemning vaccines, lobbying legislators to loosen immunization requirements and spreading misinformation and fear about vaccines — deserve to be marginalized. But they’re a tiny, tiny minority when it comes to the continuum of vaccine hesitancy.”

Dr Boonstra is as wonderful and patient with kids as he is with parents. He never belittles any questions or concerns I have and is great at explaining everything. Having him as our pediatrician was our very best parenting decision!
